PROFESSIONAL PROFILE

Frontend and DevOps developer with 15+ years shipping at scale for Ericsson, Grupo MasMovil and self-founded startups. Specialized in **React**, **TypeScript** and Cloud infrastructure (**Kubernetes**, **Docker**, **GCP**, **CI/CD**). Built products from zero to enterprise. Open to **remote or hybrid** frontend / fullstack roles.

PROFESSIONAL EXPERIENCE

2025 – Present

Co-Founder · Fullstack Developer & DevOps · MyNexoria (remote)

Solo-built the entire MVP of an **AI agent platform** for SME scheduling automation via natural language (voice & text). **NestJS** backend connected to **PostgreSQL** via REST and GraphQL, containerized with Docker and deployed via Helm. 50 beta users, 2 corporate pilots.

React · TypeScript · Vite · Bun · NestJS · PostgreSQL · GraphQL · Hasura · Docker · Helm · Material-UI · deck.gl

2024 – 2025

Frontend Developer & DevOps · Grupo MasMovil / MasOrange (remote)

Built and maintained the **ecare** customer service platform for all group brands — Másmóvil, Yoigo, Jazztel, Lyca, Pepephone, Euskaltel — serving **millions of users** across Spain. Managed deployments and environment configuration across brands.

React · TypeScript · Context API · NX Monorepo · Kubernetes · Helm · Material-UI · CI/CD

2022 – Oct. 2024

DevOps & Frontend Developer · Ericsson (remote)

Migrated critical microservices to Kubernetes including **Policy Studio** — Ericsson's 5G/4G network programmability tool delivering up to **70% OPEX savings** in policy configuration. Infrastructure migration to **GCP** and bare metal using CI/CD pipelines for international 5G deployments.

2016 – 2019

Frontend Developer & Project Leader · Lexcontrol, Alcázar de San Juan

Lead developer and Scrum Master for a compliance management SaaS. As SM, coordinated sprint delivery that allowed me to own **85% of the frontend codebase** while maintaining full test coverage.

React · Jest · Unit Testing · SCSS · BlueprintJS · deck.gl · Firebase · Node.js

2016 – 2019

Sysadmin & Full Stack Developer · Grupo Criptana S.L.

Implemented open-source ERP **Odoo** with Python customizations. Built a React + React Native construction management app with **GCP** backend.

Odoo · Python · React · React Native · GCP · MySQL · Ubuntu Server · VPN · MikroTik

2014 – 2017

Full Stack Developer & Sysadmin · Self-employed (remote)

Delivered full stack web projects and sysadmin for 3 companies in Castilla-La Mancha. Also prototyped AR and geolocation apps.

WordPress · React · Django · React Native · Unity (C#) · Bootstrap

2008 – 2012

Web Developer & Sysadmin · TI53 S.L. (remote)

Managed servers, networking and day-to-day IT operations for the company.
